### **Apostle Training/Mentoring Program**

#### **Assignments**

As Apostles I do have some assignment for you to complete. I would like for you now to enter into your deep study phase regarding your Commissioning as an Apostle. I ask the Lord to tell me why I hadn't had you guys go through all the studying before Commission you, He show me how corporate America promotes. You get the promotion then your training starts because they already see that you have the qualifications to do the work at hand. So, I'm following that same pattern with some.

Please see the attached documents for further instructions.

Yours in Christ,

Dr. Venessa Battle

I would like for you to read and study one book a month and send me a five page paper summary of each. These are all the classes I went through back in 2002-04, that really helped me understand my call. I feel the leading of the Lord to have you do the same as well as we are laying a foundation for all new Apostles that come to our ministries. You have probably read several of these books already just send me a summary. Whatever month you begin in the class ends 12 months later. If you have any questions please feel free contact me.
